-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

- 1) Applicant's election without traverse of species 4 (figures 5 and 6) in the reply filed on 5/18/04 is acknowledged.

Drawings

- 2) The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference character(s) mentioned in the description: Reference number 252a and 251a. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4) Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Woodward (3809191).

In re claim 1, Woodward (3809191) provides an electric brake apparatus comprising: an electric motor (432) which generates a rotational drive force; a gear train (430, 428, 426) connected to the electric motor so as to be driven thereby and generating a rotational drive force; a screw feed mechanism (418) having an input member connected to the gear train so as to be driven thereby, the screw feed mechanism converting the rotational drive force from the gear train into a linear drive force; a wedge transmission mechanism (412, 414) connected to the screw feed mechanism so as to be driven thereby for converting the linear drive force from the screw feed mechanism into a linear drive force transverse to the linear drive force from the screw feed mechanism; and a piston (398, 400) connected to the wedge transmission mechanism so as to be driven thereby in an axial direction of the piston and generate a braking force.

In re claim 2, Woodward teaches a rotating output shaft of the motor and a screw shaft of the screw feed mechanism are disposed side by side. Please note that the examiner has read the term "side by side" as broad.

In re claim 3, Woodward teaches an output gear (top of screw near 426) which is integrally formed on the input member of the screw mechanism.
